Investigator Asserts He Has Evidence to Hand District Attorney.

### IMMUNITY FEARED; HEARINGS HALTED

Wallstein said vesterday that as a resulof his inquiry into the Coroners' office "I have evidence indicating that crimes have been committed, and I feel it my duty to put this material in the possession of the District Attorney."

The Commissioner said explicitly that he has kept back certain death cases so as not to confer immunity on persons who may

to Find Nantucket Beacon.

Washington, Dec. 9.—A wireless message received by the Nary Department to night from the United States coller Jupiter says that the Nantucket lightship is missing. The collier herself has been damaged by the gale. The message said that the Jupiter, which was safe and all on board well, was making for New York because of damage by the gale, thick weather and the absence of the lightship.

The Jupiter sailed from Philadelphia for Boston on December t. She is one of the Government's new colliers and is equipped with the navy's new electricative. Nave Department officials are not worried over the Jupiter but express concern over the absence of the Nantucket lightship.

The Nantucket Shoals lightship, which caupped with wireless, reported three mays ago that she had been forced off station by the heavy northeaster, She said a radiogram to the naval radio station at Newport on Themsia.

After the official abandonment last night of the coal strike the miners began to-day considering ways of getting their places in the mines again. President Jesse F. Welborn of the Colorado Fuel and Iron Company issued a statement to the effect that it was hardly possible that any of the strikers, who are said to number 3,000, would get jobs at pres-ent. He also said that if the Federal troops are withdrawn at this time with-out certain lawless strikers being com-pelled to reveal hidden arms the operators would be in a more precarlous post tors would be in a more precarious posi-tion than ever and that bloodshed was probable. In this statement he was backed by Gov. Ammons.
